Regrouping

---

LOEB. I drive carefully, I don't want to take unnecessary risks. We have a good rhythm to finish the race.

HIRVONEN. Everything is going well, we have no problems. The stages are very beautiful. Personally I remembered only the first one.

SORDO. The round is more slippery than the other days. We are third and everything is going well. We are also testing new solutions for the Greece Rally.

PONS. Everything is ok. Now we are concentrated also to test new set-up for the Greece.

ATKINSON. I feel very good today. We have new set-up and now I think it's a better solution.

VALIMAKI. In the next three stages the duel with Petter is going to be very tough. My car is ok, but Solberg is always fast.

P. SOLBERG. I have oversteering problems. I'll try to catch up for the 22 seconds of Valimaki. Today's race let us trusting for the Greece.

STOHL. I have problems with the cooling system. We are trying to find a solution.

SOHLBERG. I've lost 15 seconds in the first stage and then I had two punctures. Unfortunately the mousse didn't work in one tyre.

DUVAL. Everything is ok. We only have to see the finish. The ground is slippery. It's not so easy.

Armin SCHWARZ. What a pity. Rovanner retired after the second stage because of a problem to the front differential.
